

*INVEST IN THE CHILDREN*

Television ads, radio announcements, internet articles and persistent mailings often remind us of planning for our future. Along with these, we also ask you to INVEST in the children of *Saint James School*. We need you to be a part of the financial plan for their future. Budgets are certainly stretched to the limit in these challenging economic and social times and SJS, like you, has not escaped this fate. Each year the total cost to educate each student increases and yet, we minimize the tuition raise. We realize the struggle our families face in order to provide a quality Catholic education for their children.

By launching this critical appeal we hope to help bridge the gap in the tuition vs. actual cost of our students' educational program. Expenses this year due to the COVID Pandemic precautions have had an impact on the school's annual budget. This is in addition to all the usual costs involved in providing a top-notch academic program. Keeping our students safe and well while nurturing their whole being is our primary concern and you can help.

With its rich history and treasured presence in the lives of its many graduates, their families and the community of Woodbridge, your support can make a difference in the future of our students. Please do join us with a gift, in any amount you can, to

*INVEST IN THE CHILDREN!!!*

We are extremely grateful for your consideration and your gift to this important appeal. Many of you have supported us in the past and you are a blessing to us! We hope you will support us now.

With gratitude.

*The Members of the Saint James School Advisory Committee*
